### AI Issue Enhancement

Detected Type: Bug

Priority: Critical

Priority Reason: Core login functionality is completely broken, blocking all users.

Severity: Critical

Confidence: High

### Structured Issue

Title

Bug: Login button unresponsive

Summary

The login button does not respond to clicks, preventing users from logging in.

#### Steps To Reproduce

- 1. Navigate to the login page.
- 2. Click the login button.

Observed Behavior

The login button does not perform any action when clicked.

Expected Behavior

The login button should initiate the login process, typically by submitting credentials or navigating to a new page.
